ALL. : BASKET BALL. : THE TRAP. : PUGILISM.

Great, affairs have for the year is bright.

Great, affairs have passed from a stage of "imnocuous desuetude" to one of general activity throughout Salt Lake fandom. The first warm rays of the sun in the spring seem to bring out all the enthusiasts, who have been hibernating during the long winter months and baseball talk can be heard on every corner. The players, who have and baseball talk can be heard on every corner. The players, who have been dining on free lunches for many a day, once more become the heroes of the hour and the small kids point them out with envy as they walk majestically up the street as the fellow that made a home run last season or had ten strike-outs to his credit when he played in a championship game. During the week the much talked of Salt Lake team has become nearly a fact instead of a theory. The articles of incorporation have been filed and the board of directors are ready to talk business. The names of the directorate are among the best and most substantial residents of the city, which should indicate that the affairs of the club will be run for the intorests of the sport, and not for selfish motives or pecuniary benefits of any one person. Meanwhile other organizations have mot been idie and both the Park and Railway aggregations bid fair to bestrong rivals for the new Salt Lake texness or the salt and residents of the players have been accepted by the National league with the continue. At this meeting rules to make the play faster were adopted, and they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the game many per cent from the grandstand they are sure to improve the gam be run for the interests of the sport, and not for selfish motives or pecuniary benefits of any one person. Meanwhile other organizations have not been tille and both the Park and Railway aggregations bid fair to be strong rivals for the new Salt Lake club. The management of the Railways has succeeded in interesting all the railroads which have offices in the city, with the result that instead of having the backing of one road as heretofore. the backing of one road as heretofore, a combination has been formed that will be hard to beat. The management of the Park City team has some of the best people of the Park back of him end as Park people are noted for the vim they display when once aroused, it seems to be a foregone conclusion that their team will also be a great success. Ogden was the first city in the state to get in shape for the com-ing season and for some time past has been ready for the signal to play ball. The only important matter to come up before the clubs now is the formation of a state league and it seems to be gen-rally sected that a four club league will be formed with the above

ball, there will not be so many efforts to catch the player off first base. Now that the demands of the players have been accepted by the National league magnates and these improved rules have been adopted, there is no reason why the game should not be more popular this year than it has ever been in its history. From the result of the meeting there are also indications that the fight between the National and the American leagues will be made strictly on the level. There will be no attempt on the part of one to take ar unfair advantage of the other. Both leagues will put the best article of baseball that they can afford before the people, and the latter will be expected to patronize that which is best. This will also be in the form of an improvement to the game, and for such a cloudy beginning the change is almost wonderful and the season promises to open under more auspicious* circumstances than ever before.

Margaret Calhoun of Springfield, mentioned teams as members. The meeting will probably be held some time this week after which bets on the pennant winner will be in order. In the amateur line several teams have already been heard from. The U. of U. was the first in the field and is now at

is champion of champions. She is blonde, 20 years old, five feet seven inches tall, weighing 140 pounds. Her eyes are of azure and her complexion is very fair. There is not a superflu-ous ounce of fiesh on her. She is all

bone and sinew.

"I guess I'm a good athlete," she said today, "because when I was a mere toddler I used to climb trees in my other's archard, and steal—no, not

toddler I used to climb trees in my father's orchard and steal—no, not steal, but pick fruit. Father always encouraged me in athletic exercises, and I'm mighty glad he did."

Here is a partial list of Miss Galhoun's accomplishments: Standing broad jump, 7 feet 6 inches; holds the record for the Vassar golf links, leaving Colonel Bogey beat a to a stand-

still; putting the 18-pound shot 23 feet; running broad jump, 12 feet 10 inches; holds the all-round championship of the girls' college; champion Vassar's best dancer, best swimmer, best skater and strongest girl student. Over 600 girls competed with Miss Calhoun for the title of champion of Vassar.

Down in San Francisco Tod Sloan, who has of late been playing the short end on big events, tried a 10 to 1 shot on society and was left at the post. Tod not only is a jockey, but he is a backer of horses as well; a sportsman, too, and boasts of the friendship of the Prince of Wales before the latter was king.

Was John's reply to a question as to what he might think of her. 'She comes from some jay town where they ain't up to date. There's all the booze you want in Topeka and there always will be.

"How did you lose the champion-ship?"

Oh, I was doped, too. A woman named Delila got at the water bucket will be.

"Say, if this old lady is on the level, why doesn't she go down to Atchison or Leavenworth, two hot Kansas towns, where the saloons are wide open and there's a lot of tough fellers hangin around? She's wise, see.

"Why, they'd throw her in the river if she got gay down there. I'd like to see her come in my place and start to smash things.

"Hus did you lose the champion-ship?"

Oh. I was doped, too. A woman named Delila got at the water bucket and I took down the dope. While I was sueeps he gave me a haircut and I was not of took tansas towns, where the saloons are wide open and there's a lot of tough fellers hangin around? She's wise, see.

"Why, they'd throw her in the river if she got gay down there. I'd like to see her come in my place and start to smash things.

"Why, I'd just say to her: 'See here, if she you go to the body of the start, but he was used to jumph in her will be.

"Why, I'd just say to her: 'See here, if she you go to the place is insured and if you be also the comes from some jay town where they and I will be.

"How did you lose the champion will be will be will be."

"What difference small and puny indeed. Miss Calhoun still; putting the 18-pound shot 23 feet; is champion of champions. She is blonde, 20 years old, five feet seven holds the all-round championship of

The depredations of Mrs. Carrie Na-

A telephone message was received at the Art association from a man named Van Praig. He was from New York, and he and two friends wanted to join the revellers that night. Was he all right? Well, they said so at the Palace hotel, from where the telephone message was supposed to come. So up at the big house on the hill he went with \$30 for three tickets, and sent in his name and two others—Tod Sloan and Ed Purser.

Secretary Martin of the Art association has a many shocks in his time, but this was an earthquake. He did not know that Purser was a racetrack follower, but he knew that Tod Sloan—well, it was rather late and none of the committee was there.

President Byrne of the association was giving a dinner at the University club and when the telephone rang up for him he could not leave his guests. The telephone rang again and a message was taken to him. He gave a hasty glance at the note and gasped:

"Tod Sloan; not on your life."

But the Mardi Gras ball was a success, notwithstanding the unavoidable absence of Sloan and his friends. The slight. He had intended to put in a

hasty glance at the note and gasped:

"Tod Sloan; not on your life."

But the Mardi Gras ball was a success, notwithstanding the unavoidable absence of Sloan and his friends. The jockey, however, will not overlook the slight. He had intended to put in a few days with the swells at Blingum, but all bets were declared off and he is now busy making a new book.

The depredations of Mrs. Carrie Na.

"Speckled Fitz" has taken up the idea of looking into the records and methods of the champions that were. For this purpose he has taken up spiritual ism, and it is said that he holds daily conversation with the great fighters of old by aid of the trumpet. It is portent that he held the following conversation when the said that he held the following conversation when the said that he held the following conversation one day last week. The trumpet tapped and Fitz knew that somebody at the other end of the line wanted to talk to him. He took it up: talk to him. He took it up:
"Hello," came from the other end,
"who is this?"

BASEBALL CLUB IS INCORPORATED

Officers and Directors of Asso ciation Named.

M'CORNICK IS PRESIDENT

PROFESSIONAL PLAYERS WILL BE SIGNED.

Articles of incorporation of the Salt Lake Baseball club, defining the purposes of the club and giving the names of those who will manage its affairs, were filed with the county lerk yesterday afternoon. The original plans are somewhat changed, and the new club, besides embarking into baseball, may interest itself in other athletic necessary to effect an organization in order to collect subscriptions and issue stock, no one being a stockholder and entitled to vote until stock was issued. The gentlemen named as the first board of directors took the initiative, paid up their stock and incorporated the company. The first annual meeting will occur in May, and if the manage-ment of the present board is not satisfactory a new one can be placed in

The articles state that the organiza-The articles state that the organiza-tion shall be known as the Salt Lake Baseball association and shall run for a period of fifty years. The officers named are: Clarence K. McCornick, president, who holds 200 shares; George Dern, vice president, holding 100 Dern, vice president, holding lighters; Samuel A. Whitney, secretar and treasurer, holding ten shares Charles H. Griffin, Edwin C. Coffi James C. Leary and Jedediah H. Cliv cach holding 100 shares, and Harry S. Joseph, holding 200 shares.

These gentlemen constitute the board of directors and will have full management of the club until the May elec-

Object of Incorporation.

Object of Incorporation.

The articles then state the objects of the corporation as follows:

"To organize, own, control and manage teams or associations of baseball players, football players, or any other teams of players of field sports; to hire or keep for hire any or all such teams or associations: to conduct and carry on any and all field sports and field games or amusement; to employ and contract for the time and services of individual baseball or football players; to sell or assign or otherwise dispose of any contracts for the time and services of any individual members of any of said teams or organizations; to sell, lease or otherwise dispose of the time of said teams of organizations; to sein, lease or otherwise dispose of the time and services of any or all such teams or associations of players; to acquire by exchange, purchase or lease and to sell or dispose of real estate and improvements for use and used in aforeprovements for use and used in afore-said business, and generally to do and carry on any and all such business whatsoever necessary and hiddent to exhibitions of baseball, football games, and any and all other field games and exhibitions, for public amusement and for profit."

Paid Professionals.

As will be seen, it is the intention to put a paid team in the field; that is, the players will all be hired to play the players will all be hired to play ball, and their time will not be divided between working for somebody and playing ball at odd times. This, of course, means that the best possible talent will be secured, and should give the city a nine that can compete with the best organizations in the western country.

is too early as yet to say just where players will be secured, and whether any local men will be engaged, but one thing has been announced by some of the present directors, and that who does not come up to the standard required. It is expected that as soon as the directors meet a manager will be the directors meet a manager will be elected who will have authority to make a trip east and sign needed players. Owing to last year's experience with some of the teams, the question of "booze" will be an important one, and the directors give it out that this unnecessary article in ball playing will have to be cut out entire;. The new unnecessary a ticle in oan play as have to be cut out entirely. The new club makes provisions for farming out players, but it is learned that they do not intend to go in on this scale very extensively, at least not for the presented that they articles so read that the players, but it is learned that they do not intend to go in on this scale very extensively, at least not for the present. The articles so read that the company can embark in the football to interest all the railroads of the

If country. A well known fan said last

and then watch my smoke," were the werds of Jack Meineke, manager of the

and then watch my smoke," were the words of Jack Meineke, manager of the Park City baseball team, last evening. Meineke severed his connections with the firm with which he has been employed yesterday, and has now blossomed into a full-fledged magnate.

The Park team will be run by an incorporated company, on the same general plan as the new Salt Lake club.

Meineke states that the company will be incorporated the coming week, with a capital stock of \$1.500, about one-half of which was secured in a single day by him on his recent trip to the mining wown. Some of the best business men of the Park are back of the team, including Mayor Smith. His konor became very enthusiastic when the subject was first broached to him and announced that he would declare the date of the opening zame a legal holiday.

Manager Meineke has signed several men, and among them are a number of well known players. Caine, who held down the third corner on last year's Short Line team, will act in the same capacity for the Parks. McCausland will be found on the first bag, and comes to this city with a record from the Western league, having played with Denver last season. Gamble, center field on the Rio Grande, and Seare, catcher on the same team, will be found at these positions in Meineke states he has his hooks out for the right men for these places.

After the team is fully organized it will be brought into the valley for a few for the second the these places.

After the team is fully organized it will be brought into the valley for a few weeks' practice before the season opens.

WITH THE HORSEMEN. Interest Being Manifested as the Season Opens Up.

In the language of Tom McCoy, the beautiful weather of last week has made the "horseman very horsey." The weather seems to affect the owners of fine horseftesh the same as basebail fans and "bike" cranks, and in consequence almost any afternoon of the past week a crowd of horsemen could be seen around McCoy's stables talking horse and incidentally predicting what this colt or that mare would do the mile in before the summer passed away. R. E. Fowler has a parer on the way to this city from Illinois, sired by Tennessee Wilkes, with a record of 2:15%, and will also bring a well-bred 2-year-old. C. F. Tanner has been training his Lady Akmon and Saxaline, the forme a trotter and the latter a pacer, for the summer's racing season, and has another green pacer from which he expects great results. Mr. Tanner has just shipped his pacer, Black Dan, from the east to this city and will commence work on him as soon as he arrives. Vesta C, a pacer owned by C. V. Hansen of Blackfoot, Ida., will be sent shortly to H. W. Brown of this city, who will take her in charge and put her in shape for the spring racing at Denver. This animal has gone the mile in 24 and Mr. Brown thinks that with little effort she can bring mark down to 15 on a good track.

THE RAILWAYS.

Manager Clippenger's New Idea on Baseball Team.

A few days ago Clippenger announced that he would call his base- are a ball team the Railways. At the time it was supposed that the energetic

Manager Meineke Will Leave for Mining Town Tuesday.

"I leave for the Park Tuesday morning, and the weather Tuesday morning to take a try at the ducks. The Decker Lake club will to the general average. open the season today, and a majority of the members will visit that place. Dr. Ellerbeck, Ed McGinnis and a party left for the mouth of Bear river evening for a day's shooting, expecting to return tomorrow morning. Reports from those outside yesterday indicate that the ducks are becoming scarce,

New Gymnasium Opened.

P. H. Moore and E. C. Thompson ave completed their new gymnasium und physical training quarters and will open tomorrow. The gentlemen have one of the finest and best equipped gymnasiums in the city, being a great improvement, both in size an in ap-paratus, over the one that was destroyed by fire in the Hooper block last A physical culture department, under

the benefit of this class of work, be sides the regular gymnasium exercises.

Y. M. C. A. Basket Ball.

The first and second teams of the Y. M. C. A. played a practice game of basket ball last evening. The first team was trying out some new team work, and for this reason the score against the second team was not very large. The following was the line-up and

ONE PRICE. J. P. GARDNER, Main St. and the medal in the opening round of ship shoot at inanimate targets on the roof of Madison Square Garden today by breaking 94 out of 100. The conditions of the match are 100 targets at unknown angles. Re-entries are unlinited and on the closing day of the shoot, which will be Saturday, March 16, the final allowance of the contest will take place. The contestants who will be eligible to compete in the final round will be the twenty five shooters.

who shall have made the twenty-five highest scores in the qualifying rounds.

Conceded that they could not sustain adopted a platform which endorsed the national administration and the civil service law, and condemned the grant-

County Commissioners Investate the Case-Charles Stevenson Was Belligerent.

of the forty string was still but one bird short of a clean record. Callison fell down on the nineteenth shot and missed again on the twenty-sixth and finished the forty mark one bird behind Sharp. The latter missed again on the forty-second and lost his nerve on the last one of the shots, giving a score of forty-seven out of the possible fifty. Callison started in on his last string of ten with five straight and then missed two in succession, one of which was smoked, but did not break, thereby losing the chance of a tie with Sharp and also the first medal.

The four medals were offered by the It was a pitiful scene before the by iosing the chance of a tie with Sharp and also the first medal.

The four medals were offered by the club to the four members making the highest scores, each medal having to be won six times before it became the property of any member. The first shoot for them began on the 28th of December, and Sharp stood high man since then six times, with scores of 44, 48, 49, 45, 47 and won out yesterday with another score of 47, making a total of 280 targets killed out of a possible 300, giving him an average of 93 1-3. Callison won the medal five times with scores of 50, 49, 46, 48, 48 and broke forty-six targets yesterday, which gives him a total of 287 birds killed out of a possible 300, and the high average of 95 2-3. It will be seen by the above records that Callison broke more targets and has a higher average than scars and ten, so so and yesterday declined to say anything disparaging against them. But it was different with Stevenson. He was so belligerent because he had been cited to appear the charge of not contributing to his mother's support, that the commissioners that he had one the best from the charge of not contributing to his mother, a good appearing woman of more than the allotted three score years and ten, sobed pieparaging against them. But it was different with Stevenson.
